

Leveraging Distance Learning

Jeffrey Laube
Assistant Professor of
Process Technology

Outcomes

- PTEC-teachers who are teaching, or are planning on teaching, online Process Technology courses via distance or via a blended will be able to avoid common online course mistakes.

aim of this workshop

- ◉ show examples of my distance delivered courses
- ◉ Technologies
- ◉ Rules to follow

aim of this workshop

● show examples of my distance delivered courses

- Introduction to Process Technology
- Process Technology I: Equipment
- Process Troubleshooting

aim of this workshop

○ Technologies

- Blackboard (random quizzes/test questions)
- Screencast-O-Matic w/You Tube
- Collaborate
- Recorded lecture videos
- Course Materials

Student Comment

“The Troubleshooting class ... very organized and sets up his online classes in a way that allows the student to access information while incorporating essential concepts...”

Setting up a course

- Use the same word

Online Course Rules

● Good

- Flexible
- 100% ready-day one!
- Access to entire course
- Consistent wording
- Consistent due dates
- Clear expectations
- Consistent location
- Links have value
- Grading prompt

● Not So Good

- Not Flexible
- Not ready
- Limited access
- Wording changes
- Due dates change
- Expectations unclear
- Locations change
- Links to nothing
- Erratic grading

On-Line or Blended Course “Quality Matters” Checklist

- ◉ Course Overview and Introduction
- ◉ Learning Objectives (Competencies)
- ◉ Assessment and Measurement
- ◉ Instructional Materials
- ◉ Course Activities and Learner Interaction
- ◉ Course Technology
- ◉ Learner Support
- ◉ Accessibility and Usability

Technology

Course Content

Module 1 - Chapters 1 & 2

Take note that quizzes close (some at the same time). Quizzes and Tests can be done anytime before the closing (they do NOT have to be done ON the closing date). In each module, the items that you MUST do are listed on this **Course Content** main page in bold and have a check box ☐ in front of them. Also closing dates are displayed on this **Course Content** main page.

* Click on the blue 'Chapters 1 & 2' link above to watch lectures and take your quiz on:

CHAPTER 1 Process Technology: An Overview

CHAPTER 2 Mineral Extraction: Oil, Gas, and Mining Industry

ALSO be sure that you have:

- ☐ **Read the 'Start Here' (menu on the left)**
- ☐ **Submitted your Request A Proctor Site (found in **Start Here**)** It may take a few days before this class shows in the list.
- ☐ **Syllabus quiz** [In the Module 1- Chapter 1 & 2 link above:
- ☐ **Submitted Chapters 1 & 2 quiz**
- ☐ **Discussion Board - Introduction**
- ☐ **Submitted Consent/Release Form**

Module 2 - Chapters 3 & 4

CHAPTER 3 Chemical and Pharmaceutical Industries

CHAPTER 4 Power Generation Industries

- ☐ **Chapters 3 & 4 quiz**

Module 3 - Chapters 5, 6, & Resume

CHAPTER 5 Food and Beverage Industries

CHAPTER 6 Water Wastewater Treatment Industries

Cover Letter and Resume

- ☐ **Chapters 5, 6, & Resume quiz**
- ☐ **Submit Cover Letter and Resume Assignment**

Module 4 - Chapters 7, 8, & 9

CHAPTER 7 Pulp and Paper Industry

Description This is an open book, open notes, quiz that covers the material listed in this week's learning unit.

Instructions This test can be taken up to three times. Only your highest score will go in the grade center. This test pulls random questions from a pool of questions. Even if you get a great score on the first attempt, you are encouraged to take this quiz three times so you may see more of the types of questions that are asked in this course. This will help with Test preparation.

Course Content

Module 1

Take note that quizzes close (some at the same time). In each module, the items that you **MUST** do are listed on this **Course Content** main page in bold and have a check box ☐ in front of them. Also closing dates are displayed on this **Course Content** main page.

Closing dates are the **LAST** date to do homework, quizzes or tests. Everything can be done **EARLY**, including tests. It is strongly recommended that you do not wait to the last minute to do work for this class.

* Click on the blue 'Module 1' link above to watch lectures and take your quiz on:

Dimensional Analysis

Commonly Used Terminology

Piping Specifications

To complete each module you must complete these check-box items:

- ☐ **Read the [Start Here](#)**
- ☐ **Submitted your [Proctor Request Form](#)** [This must be done prior to your first proctored test. The form is in [Start Here](#)]
- ☐ **Introduced yourself in the [Discussion Board](#) and responded to another student**
- ☐ **Syllabus quiz**
- ☐ **Submitted Module 1 quiz**
- ☐ **Submitted Consent/Release Forms**

Module 2

Valves

Flanges

Pressure/Temperature Ratings

Design properties for piping

*Cover Letter and Resume

Presentation Assignment

In this course you will be required to give a 7 - 10 minute presentation to the class. The presentation will be on some kind of process equipment of your choice. You are encouraged to pick something that is NOT covered in the class. If you choose a type of equipment that is covered in class, your presentation would need to cover details that are not covered in class. The presentation will be done on-line using Blackboard Collaborate.

To avoid duplication of topic you will need to submit your topic to the instructor for approval by posting your topic in the discussion board.

In the handout section of module 2, are the Project Presentation detailed instructions. Go to Module 13 for more details.

2 Quiz

This is an open book, open notes, quiz that covers the material listed in this module. You can take this test 3 times. Only your highest score will be recorded.

PRT A250 - Troubleshooting

This certification mark recognizes that this course met Quality Matters review standard

Course

Announcements

Welcome to PRT A250 Process Technology Troubleshooting

Posted on: Friday, July 20, 2018 6:54:00 AM AKDT

Welcome to **PRT A250 Troubleshooting**. Go to the **Start Here** and read through that area. Then look at the **Syllabus** (you may want to print a copy of the syllabus). Post your introduction in the **Discussion Board**. Finally, go to the **Course Content** area and begin the course work.

In the **Course Content** are you will find:

- Reading assignments
- Learning Objectives
- Handouts
- Learning Objectives
- Lecture references
- Video Lecture recordings
- Closing dates
- Quizzes
- Homework
- Tests

All work must be done by the closing date. Remember all work can be done **early**. Even testing can be done early. So plan ahead, and look at the entire semester; compare closing dates to your (work) schedule.

Welcome to class.

Simtronics In-Class
Exercises SPM 600
Unit Operations of
Chemical
Processing
Exercises 3, 11, 12.
We will discuss the
difference between
a Pump failure -vs-
a valve failure.

Pool Canvas: Simtronics Pump

The Pool Canvas presents an inventory list of questions that can be managed and searched. You can use the check boxes to select any or all questions and then delete them or change their points, or edit questions individually. [More Help](#)

Assignments Week 7

Folder empty

discuss course design

- Course objectives

- Unit objectives
 - Alignment with textbook
 - Alignment of the lectures
 - Assessment in Alignment

- Repetition with-in the course design

- Within a course
- Within a program

Course layout

- ◉ Repetition with expectations
- ◉ Repetition with dates
- ◉ Repetition with terms
- ◉ Repetition in design
- ◉ Repetition throughout all courses
 - Work with other instructors at your school

Instruction

● Recorded Lectures

- Elive – Moodle – Blackboard Collaborate
- Classroom video
 - Videographer
 - Lecture capture
- Screen Capture
 - ScreencastOmatic (short-free: longer for fee)
 - Jing (short)
 - Camtasia (long)

Instruction

- ◉ Mini lectures
- ◉ Lecture materials
- ◉ Handouts
- ◉ Learning Objects

Assessments

- ◉ Homework
- ◉ Quizzes
- ◉ Testing

Hybrid vs Distance

- Class meets face to face at Kenai River Campus in Soldotna. This course is designed to accommodate students who may not be able to attend all the face-to-face lectures. Students have full access to all course materials in an online format. Students will need a computer, speakers or headphones and high-speed internet access to obtain the online course materials.

- Lab Intensive

Labs

Lab Intensive

- Contact hours the same
- Twice a semester
 - F/S
 - 9A-7P
- One night rentals at dorms

pros

- ◉ working-adults
- ◉ shift-work
- ◉ no-location
- ◉ asynchronous

Questions

● Learning Journal

- What is the one most important thing you learned in this session?
- What are three things you will do differently as a result of this session?
- Who else would benefit from what you learned today?
- What do you want to tell them?

● Reminder:

- sign-in sheet
- evaluations
